

main.py

Visualize

Run

```
1 import numpy as np
2
3 temp = np.array([25, -3, 28, -1, 30, 27, -5])
4
5 temp[temp < 0] = 0
6
7 print("Updated temperature values:", temp)
```

Output

Updated temperature values: [25 0 28 0 30 27 0]
